Vorwort.

Das vorliegende deutsch-englische Wörterbuch verdankt die Hauptelemente seines Bestandes neben den lexicalischen Sammlungen, welche in ihren Anfängen bereits von Dr. J. G. Flügel, dem Vater des Verfassers, sowie vom Verfasser selbst angelegt worden waren und zu großem Theile den deutsch-englischen Wörterbüchern von Dr. A. W. Meißner (Vol. II der 3. Aufl. von Dr. J. G. Flügel's Complete Dictionary), sowie dem 2. Theile von Dr. Felix Flügel's Practical Dictionary als erste Grundlage dienten, einer Reihe von Werken, welche theils in den Vorreden zu den eben genannten deutsch-englischen Wörterbüchern aufgezählt werden, theils weiter unten zu nennen sind. Die erwähnten Sammlungen* sind seit dem Abschlusse jener Werke vom Verfasser stetig bis zum Jahre 1878 fortgeführt worden und, soweit es der leider sehr beschränkte Raum zuließ, von einem langjährigen lieben Freunde des Verfassers, dem Prof. Felix Liebrecht in Vütlich, mit großem Zeitopfer und Hinzufügung eigener wichtiger Arbeiten diesem deutsch-englischen Theile einverleibt worden; seine genaue Kenntniß der Feinheiten der englischen Sprache befähigte ihn ganz besonders zu dieser Aufgabe, für deren Durchführung (welche ihren Abschluß in dem genannten Jahre erreichte) ihm aufrichtigster Dank zu zollen ist. Diese Vorarbeit wurde vom Verfasser aufs genaueste geprüft, durchgearbeitet und vervollständigt. Benutzt wurden außerdem, obwol in geringerem Maße, der deutsch-englische Theil des Wörterbuches von Hilpert, sowie der des Lucas. Das Werk des Hilpert oder vielmehr seiner fleißigen Fortsetzer (ich spreche hier immer nur vom II., deutsch-englischen Theile) erschien erst 1845, zwölf Jahre nach Hilpert's Tode, und ist ausgezeichnet in seiner Art, noch vielfach brauchbar, wenn auch von der Zeit in manchen Punkten überholt. Der bereits 1843 als grober Plagiarius überführte Grieb ist nicht auf eine Linie mit dem von ihm ausgeschriebenen Hilpert zu stellen. — Was die Benutzung des Lucas'schen Werkes anlangt, so ist dieselbe stets in den Grenzen des litterarischen Anstandes geblieben, welche umgekehrt Lucas selbst bei der vielfach buchstäblichen Ausschreiberei der beiden oben zuerst genannten Werke nicht einzuhalten verstanden hat; ein Umstand, welchen niemand ahnen kann, der bloß seine Vorrede liest, und welchen auch die sogenannte Kritik in den langen Jahren seit Erscheinen des Lucas'schen Werkes nicht bemerkt oder beachtet hat. Wie beim I. (englisch-deutschen) Theile hat Lucas einige Werke ohne jede Nennung der Namen

* Der Hauptsache nach vom Verf. des vorliegenden Buches gemacht; dieselben beziehen sich natürlich in beschränkterem Maße auf die älteren großen Namen der deutschen Litteratur, welche ja in den unten zu nennenden Hauptwerken der deutschen Lexicographie die erste Stelle einnehmen; daher Anführungen aus Luther, Schiller, Goethe u. zumeist (nicht ausnahmslos) aus diesen lexicalischen Werken entlehnt sind; der Verf. fußt jedoch nicht allein auf diesen Wörterbüchern, sondern hatte Anlaß zu einer bescheidenen Nachlese, welche sich auf die eben genannten Namen, sowie namentlich auf eine Auswahl aus den Werken folgender Schriftsteller bezieht: Hagedorn, Kleist, Gellert, Gleim, Klopstock, Lessing, Wieland, Jean Paul, Schubart, Claudius, Höltz, Voß, Salis, Matthiesson, Seume, Körner, Eichendorff, Arndt, Chamisso, Uhland, Rückert, G. Heine, Lenau, F. Moos, Freiligrath, Geibel, Herwegh, Hartmann, G. Freytag, Auerbach u. s. w.

ausgenutzt: dazu gehören besonders die technologischen Werke, deren jedes allgemeine Wörterbuch allerdings nicht mehr entbehren kann, deren mühselige Arbeit aber doch wol um so mehr wenigstens Namensnennung verdient. Von diesen sind hier besonders zu erwähnen: Technologisches Wörterbuch der deutschen, französischen und englischen Sprache, von Hofrath J. A. Reil. Wiesbaden, 1853; sowie: Technisches Taschen-Wörterbuch für Industrie und Handel, 1. Theil (deutsch-englisch-französisch), Wiesbaden, 1873 (bildet einen Auszug aus der 2. Auflage des Reil'schen Werkes); ferner: Dr. Tolkhausen *re.*, Technologisches Wörterbuch in deutscher, französischer und englischer Sprache. Paris, 1855 (2. Aufl. Leipzig, 1874/75), ein sehr umfassendes, treffliches Werk; Dr. Carl Hartmann, Handwörterbuch der Berg-, Hütten- und Salzwerkskunde, 3. Aufl. Weimar, 1860; Dr. J. G. Flügel, Kaufmännisches Wörterbuch in drei Sprachen, 2. Theil (deutsch-englisch-französisch), 2. Aufl. bearbeitet von Dr. Felix Flügel. Leipzig, 1853; Deutsch-englisches Handels-correspondenz-Lexicon von Friedrich Noback und Thomas John Graham. Leipzig, 1865, ein besonders Kaufleuten sehr zu empfehlendes, mit großer Umsicht und Genauigkeit gearbeitetes Werkchen, welches ausgiebig zu benutzen der Verfasser um so weniger Anstand genommen hat, als er wiederholt nur seine eigenen Beiträge entlehnt hat; von Pierer's bekanntem Universal-Lexicon wurden die neueren Auflagen benutzt; in geringerem Maße wurde Meyer's Conversations-Lexicon und eine Anzahl anderer Werke zu Rathe gezogen.

Daß von deutschen Wörterbüchern Grimm's Rationalwerk, soweit es erschienen war, sowie Weigand's treffliches Wörterbuch benutzt worden ist, wird Jedermann voraussetzen; sie sind oft genug im Werke selbst angeführt. Auch ist hier das einzige Buch, dessen Benutzung Lucas ausdrücklich erwähnt, als beständiger practischer und zuverlässiger Rathgeber zu nennen: Sanders' deutsches Wörterbuch, ein Werk außerordentlichen Fleißes und ein fast unerschöpflicher Schatz von Belegen aus der neueren und neuesten Zeit, aus welchen oft überraschende Belehrung in grammatischen und anderen Beziehungen fließt.

Was ein noch mannigfach im Argen liegendes Gebiet aller neueren Lexicographie anlangt, nämlich die naturhistorischen und medicinischen Ausdrücke, so muß ich besonders des thätigen Antheiles dankbar eingedenk sein, welchen mein ältester Sohn, Alfred Flügel (Dr. med., † als Arzt zu Siebenlehn 22. Jan. 1890), an der oft sehr mühseligen Prüfung und Zusammentragung dieser Ausdrücke, sowie namentlich an der Berichtigung mancher alten Irrthümer genommen hat, welche in den Wörterbüchern ihr Wesen treiben und aus einem Werke in das andere sich fortpflanzen.

Zum Schlusse dieses kurzen Vorwortes muß der Verfasser noch ganz besonders der außerordentlichen Mühe und Sorgfalt des Herrn Dr. Friedrich Wilbrandt (jetzt zu Doberan in Mecklenburg) gedenken, welche dieser feinsinnige Sprachgelehrte auf die Correctur dieses Theiles verwendet hat, häufig nicht bloß Correctur im gewöhnlichen Sinne, sondern Berichtigung mannigfacher Versehen des Inhaltes, welchen ein so umfangreiches Werk schwer entgeht. Seinen unermüdlichen Winken und Rathschlägen ist der Verfasser den größten Dank schuldig; eine so der Sache dienende aufopfernde Thätigkeit gehört bestimmt zu den seltenen Erscheinungen.

Endlich ist es ebenfalls Pflicht der Dankbarkeit, der aufmerksamen und sorgfältigen Art und Weise zu gedenken, mit welcher eine zweite Correctur des größten Theiles dieses deutsch-englischen Wörterbuches von Mrs. Fiskier-Burke, früher in Leipzig, gegenwärtig in ihr Heimatland zurückgekehrt, besorgt worden ist; auch ihr verdankt das Werk manche kleine, aber doch wertvolle Berichtigung.

Leipzig, August 1891.

Marks of Pronunciation.

- over vowels, denotes the long sound, *f. i.* Ad'ler, Ad'ler, Art, Ab'art (*cf.* Adria'tisch, Hart, Standa'rt), Feu'chen (*cf.* Gen'de), Adil' (*cf.* Dil'le), Ton (*cf.* Ton'ne), Hüf (*cf.* Hüf'fen), Hüf (*cf.* Hüf'phe), Här'tig (*cf.* Här'tlich), Behör'de (*cf.* Hör'dern), Hüf'chen (*cf.* Hüf'chen). As all the vowels immediately followed by the accent, are long, it is unnecessary to place this sign of length over them; compare, for instance, Ga'be, Re'de, Ad'le, Mo'deln, In'ien, Wä'gen, D'en, Güt'ig, with Ab'gabe, An'te'de, Adil', Ab'mö'deln, Ab'rufen, Ab'wägen, Ab'wägen, Au'gütig. A syllable terminated by an accented consonant, is always short (An'ders, Et'was, = ä'n'..., ä'... &c.), only excepting the consonant *h*, which serves to lengthen the preceding vowel: Ah'le, Meh'ren, Zhr, Dhr, Uhr = äle, mären, ir, ör, ür.

- over vowels, denotes the short sound; it is generally placed over such vowels which might be expected to have the long sound, compare *f. i.* the derivatives Nach'bar, Höch'zeit, Bär'theil, with Nach, Höch, Bär.

- 1) over the vowel *e*, always marks the broad pronunciation, which is equal to *ä*; compare *f. i.* Föder, Föder, Ne'gen (*s.*) with Edel, Le'gen, Ne'gen (*v.*). It is, however, to be remarked, that this *e* is not uniformly pronounced with the same sound in the different parts of Germany: the pronunciation given in this work is that of middle Germany. Here it may be remarked that *ä* (*ae*), *ö* (*oe*), *ü* (*ue*) have not been considered as equivalent to *ä* (*ä*), *ö* (*ö*), *ü* (*ü*), in this work, although they are often erroneously held to be so; thus *ae* &c. in such words as *Acerte's*, *Boctius*, *Congruent* are always to be pronounced separately. — 2) over the vowel *i* before an *e*, used as points of diæresis, to denote that these vowels are not to be pronounced as a diphthong, but separately, *f. i.* An'dien (*pron.* An'dien), different from *Dien* (*ä'n'en*); this deviation from the general usage, according to which these points are placed over the *e*, was rendered necessary, because *ä* had already been chosen as a natural representative of the *ä*-like pronunciation of the letter *e*.

Lists of strong and irregular verbs and nouns.

Introductory Remarks. According to German grammarians verbs as well as nouns are divided into two large classes, called the strong and the weak; a third class is to be added, viz. those which for some reason or other do not decidedly follow either the strong or the weak conjugation or declension; they are called irregular.

Strong verbs as well as substantives are principally characterised by some change of their radical vowels, exhibited in verbs by the imperfect and participle past, in substantives by the Umlaut of the plural form; take, as examples the verb *Singen* (the infinitive exhibiting generally the radical vowel), imperfect: *sang*, participle past: *gesungen* (sing, sang, sung); and such substantives, as *Vater*, *Sohn*, *Mutter*, the plurals of which change the radical a, o, u, into ä, ö, ü: *Väter*, *Söhne*, *Mütter*.

While this change may be called an internal one, the *weak* forms embracing all the derivative verbs and nouns, are only changed by adding a termination. Thus *fallen*, *fiel*, *gefallen* (to fall, fell, fallen), and *Mann*, *Männer* (man, men) belong to the strong class, while their derivatives *fällen*, *fällte*, *gefällt* (to fell, felled, felled), and *Mensch* (originally an adj.: *Männlich*), *pl.* *Menschen*, come under the weak denomination. It is obvious that strong forms, representing the oldest class of words, as it were the marrow of the language, are only a minority, while the long series of derivational forms may be almost increased at will. In order to assist the learner, we here follow a general usage, and give a list of strong and irregular verbs, and a list of irregular substantives.

I.

All the strong verbs may, for practical purposes, be divided into the following eight classes: —

Radical Vowel — Infinitive	Imperfect	Participle Past

II.

As a list of all the strong substantives would have to embrace many words of foreign origin, and be of considerable length, it is preferable here merely to give the distinctive marks of this as well as of the weak declension.

Nouns of the *strong* declension, which are recognisable by an -s terminating the genitive,* frequently take the modification of vowel in the plural, invariably so, when the plural ends in -er. This modification of vowel has been indicated in the following table by “.

Table of the terminations of the strong and weak declensions: —

Strong declension:				Weak declension:			
Singular		Plural		Singular		Plural	
		(first form)	(second form)				
Nom. —	(^u)	e	—er	Nom. —		—en	
Gen. —(e)s	(^u)	e	—er	Gen. —en		—en	
Dat. —(e)	(^u)	en	—eru	Dat. —en		—en	
Acc. —	(^u)	e	—er	Acc. —en		—en	

Accordingly, it is only necessary for those who make use of this Dictionary to know, whether a substantive is strong (and in this case the form of the plural has always been given when modifying the radical vowel), or whether it is weak, or irregular. — The number of *irregular* substantives being very large and including many words derived from foreign languages (designated in the dictionary by an * preceding the word), merely a limited number of these has been given, with all the irregular words of purely German origin.

* Except in Feminines. No German feminine is declined in the singular.

[str.] n.); Einem — sagen, to bid one farewell, to say good-bye to one, to tender one's adieux (to one); Adieu variously transformed in popular pronunciation: Adies' [pr. ädjas, sometimes ädjes], Adies', Adies', Ades, Adie', Adie', † Adie', &c., cf. Grimm and Sanders, and the word Adie. This word "Adieu", introduced into the German, as it was into the English language, centuries ago, is, like all useless foreign terms, looked upon with unfavourable eyes in modern times, and will probably share the fate of other French words, rather senselessly adopted in bygone times, as f. i. Douceille, Mercet, Plaisir, and a flood of others, for a while assumed to be part and parcel of our language, but at present utterly rejected by educated persons, so that there is no danger, that we "will be reduced", as the great lexicographer Johnson apprehended his countrymen would be, "to babble a dialect of France". A rhyme like the following: da nahm ich von meinem Kind Adie' und schweigend blickt' es in die Höf (Göthe), has something very ridiculous in it now-a-days.**

 A. **Al**, *adj. & s.* (for the latter cf. also the sepa-
 rate article B) I. *adj.* 1) a) The forms of the *adj.* with the gender-endings are never preceded by the article, and avoid the weak declension: *m.* aller, *f.* alle, *n.* alles; b) examples of the common use of all (all; every; any) *partic.* in the pl. alle Menſchen ſind ſterblich, all men are mortal; alle Leute, every body; alle Dinge, every thing; vor allen Dingen, before every thing, ob. all, in the first place, first of all; anj alle Fälle, by all (or any) means; alle Proteſtanten waren ſir ihn, alle Katholiſten gegen ihn, all the Protestants

were for him, all the Catholics against him; alle beide, both of them (dem Engl. ganz ſtend u. ſächerlich würde ſein: all both oder all the two); alle drei, alle vier &c., all three, all four, &c.; ich glaube, ich ſenne ſie alle beide, I believe I know them both; hier ſind die kleinen Kinder, es iſt unmöglich ſie alle beide zu haſten, so ſtark ſind ſie, here are the babies, it's impossible to hold the two of them [umgeſpr.], they are so strong; er iſt ſtärker, als ihr alle beide zuſammen, he is stronger than the pair of you together [umgeſpr.]; wir alle, all of us, we all; ihr wiſſt es alle, all of you know it; da ſind ſie alle! there are all of them! alle Andere ſind verloren, every thing else was lost; verlangen Sie alles Andere von mir, nur nicht ..., ask me for any thing else but ...

2) The different forms of **Al** always precede the article (or other definitive *adj.*), followed by its substantive: alle die Bücher, alle meine Arbeit, alle unfere Familien &c., all the books, all my labour, all our families, &c., or it may follow this combination: die Bücher alle, meine Arbeit alle, unfere Familien alle &c., but it can never, as has been stated, follow the article, &c. (die alle Bücher &c.), thus coinciding with the English language.

3) a) Besides the regularly declined forms of **Al**, alle, alles, an indeclinable form **Al** is frequently to be found before the article, the possessive and demonstrative pronoun. all der Jammer, all mein Gold, all dies Glück &c., all the woe, all my gold, all this happiness, &c.; all des Jammers, all dem Jammer &c., of all the woe, to all the woe, &c.; the regular inflection, however, is generally preferred (in prose-writing) in the oblique cases (alles des Jammers, allem dem Jammer &c.), in the *nom.*, and in the *plur.*; b) instead of this **Al**, an indeclinable **Alle** is employed, in all the cases just mentioned, by Luther and many of the best subsequent writers, as well as among the common people up to this day; alle ſein thun iſt wahrſeit (Luther, *Dau. 4, 34*), all whose works are truth; da gebot Pharaoh alle ſeinem volk (Exod. 1, 22), and Pharaoh charged all his people.

4) **Alle** after the prepositions auf, für, in, mit, ſammt, über, zu &c. and preceding the article or a possessive pronoun, seems to be the remnant of an old instrumental case: daß ſie dich behüten auff alle beinen wegen (Luther, *Ps. 91, 11*), to keep thee in all thy ways: mit alſem Blute (Ez. v. *Kerst*), with all his blood: anß alle dem (Lessing), from all this: mit alledem (Gellert), with all that, notwithstanding; trotz alledem, for all that, notwithstanding all that; mir wiß von alle dem ſo bumm, als ... (Göthe, *Faust*), I feel growing so stupid with all this, as if.... — If dem precedes, an inflected form of **Al** must necessarily follow: mit dem allen, or, perhaps more correctly: mit dem allem; the regularly declined forms may be used in all the cases mentioned.

5) Adjectives following **all**, or **alle**, almost invariably assume the weak form in present usage, supplanting the strong form used in former times: alle guten Geiſter (Lessing alle gute Geiſter), all good spirits; alle jungen Mädchen (Lessing alle junge M.),

6) a) It is only in accordance with the notion of **Al**, always respecting a plurality and employed in speaking of numbers, that it should be regularly used in the pl. (**Alle**); in this respect **Alle** is without a singular; the latter, if called for, is expressed by jeder (every); thus, alle Menſchen ſind ſterblich, all men are mortal, maybe expressed in the singular number by jeder Menſch iſt ſterblich, every man is mortal. A whole class of phrases, denoting the recurrence of certain periods of time, or similar divi-

sions, may be expressed in German by employing either the Acc. (fam. *the Gen.*) plur. (alle) or of the sing. (jeden, jede, jedes), while the English language is confined to the sing. (every): alle (*fam.* aller) Augenblicke, every moment; er ist alle Augenblicke krank, he is sick every now and then; alle Tage, every day; alle drei Tage, every third day; alle Jahre, every year; alle sieben Jahre, every seven years, every seventh year; b) in a few exceptional cases, however, we find all connected with the singular of nouns, either abstract themselves, or in sentences conveying a generalized meaning; when *Goethe* says: und so schläft nun aller Vogel | in dem groß und kleinen Neste (4, 124), the meaning is, that sleep is the common lot of all creatures, of each and all; aller Zustand ist gut, der natürlich ist und vernünftig (*Goethe*), all and every condition is good, which is natural and reasonable; alles Ding, all (created) things; die Frauen alles Standes (*Goethe*), the women of every (conceivable) grade, condition; allen Augenblick (*Goethe*, very unusual for jeden Augenblick), every moment; aller Anfang ist schwer, every beginning is difficult; alle Willhe ist umsonst, all exertion is useless; alle Achtung vor seinem Wissen, (with) all respect for his knowledge; sie haben alle Aussicht zu gewinnen, they stand a fair chance of obtaining the prize; Eucen alle Ehre erwiesen, to show one every honour (due to him, &c., i. e. not to be wanting in due respect, &c.); alle unsere (or unsere ganze) Hoffnung, our whole hope; wie nur dem Kopf nicht alle Hoffnung schwindet, der ... (*Goethe*, *Faust*), how is it possible that all hope should not desert the wight, who ...; mit aller Gewalt, with full force, with might and main; er wollte mit aller Gewalt herein, he obstinately insisted on entering; in aller Eile, with all (possible) speed; ich wollte in aller Eile fröhlich sein, I intended to snatch a bit of breakfast; in aller Frühe (ganz in der Frühe, ganz früh), quite early, betimes; sie brachen in aller Frühe auf, they set out at a very early hour; er wurde in aller Stille begraben, he was buried very quietly; er antwortete in aller Ruhe, he answered altogether quietly; er sah dem Tode mit aller Fassung entgegen, he looked forward to death with perfect composure; ohne alle (ohne jede, or ohne alle) und jede Illusion, without any reason; ohne alle Vernunft, quite unreasonably, utterly void of reason; ohne allen Zweifel, without any doubt; auf alle Weise, in every possible way; alles Gute, everything good; der Geber alles Guten, the Giver of all good; alles Böse, everything bad, evil, &c.; der Urheber alles Bösen, the author of all evil; alle Welt: 1) (almost *syn.* with die ganze Welt) all the parts of the world; seine Sammlung ist leider in alle Welt zerstreut (*Goethe*), his collection has, I am sorry to say, been dispersed over all the world; 2) alle Welt weiß es, all the world, every body knows it; 3) colloquial phrases: in aller Welt (cf. zum Hund etc.): was in aller Welt machst du hier? whatever are you doing (are you at) here? wo in aller Welt findest er jetzt? wherever is he now? ich begreife in aller Welt nicht, was das heißen soll, I am entirely at a loss how to explain this.

7) All und jeder, emphatically, all and every, all and sundry, each and all (of them, &c.), one and all; in this combination All, at least in the sing., almost invariably drops its inflection altogether, as is sometimes the case with the first of two adjectives connected by und (cf. f. i. *Goethe's* in dem groß und kleinen Neste) it is curious that in this combination jeder (which otherwise is without a plural) may assume the plural form: all und jede or alle und jede; es sei Allen und Jedem gesagt, es

fomme zu Aller und Jeder Kunde, let it be (or be it) known to each and all; er spricht bei all und jeder Gelegenheit, he speaks on every and any occasion.

8) Adverbial use. The neuter all seems to admit of an adverbial construction a) in such combinations (mostly occurring in poetry), as all säuberlich und nett (*Bürger*), all (i. e. entirely, altogether) nice and tidy; it is often placed before überall to intensify the meaning; überall, all überall, everywhere, in every place; und überall, all überall, auf Wegen und auf Stegen (*Bürger*, *Lenore*), and everywhere, aye, everywhere | in road, and lane, and street (*Baskerville*); es ist all eins (*Goethe*, *Schiller*), although equivalent to it is all one, is by no means as frequent as the English phrase; b) *provinc.* (*Low Germ.*) for *soon* (which see); already; das weiß ich all, I know that already.

9) All, *in the sense of* at an end, finished, all gone, done, out, used up to the very last item, no more, &c. and in connection with sein, werden, machen. All in these colloquial phrases is not an adverb, but is rather used as a predicative adjective (*fertig*, *provinc.* gar etc.): der Wein ist alle, the wine is at an end, out, &c., there is no more wine; das Geld ist alle, the money is spent; alle werden, to run out, to be spent; alle machen, to finish, to do away with, to get through with ..., to exhaust, dissipate, &c.; die Kugeln sind alle (*Goethe*), the bullets are spent; nun schiest nur hin, daß es alle wird (*Egmont* I, 1), now, shoot away, and make an end of it, or, and have done with it. II. s. 1) (*str.*) n. see the separate article.

2) pl. Alle; Alle für Einen und Einer für Alle, all and singular, collectively and individually, conjointly; nicht Alle haben dieselbe Anlage, all have not the same disposition; es hatten Alle für Einen und Einer für Alle, all are jointly and severally bound (responsible); er sieht sich, sich den Widen Aller anzusehen, he shrinks from public gaze and exposure.

3) Alles, n. sing. a) an) everything, anything, all; b) coll. everybody; Alles ist verloren, everything (or all) is lost; er ist Allen Alles, he is all things to all men (*Vgl.* I. Corinth. 9, 22); wir wollen eines dem andern Alles sein, let us be everything to each other; Alles in Allem, all in all, altogether; wir sind einander Alles gewesen, we have been all in all to each other, we were all the world to each other; es waren siebenhundert in Allem, there were seven hundred altogether; sein Geschäft ist sein Alles, his business is his life (his all); er gilt Alles bei ihnen, he is one and all with them; Ende gut, Alles gut, proverb, all is well that ends well; wenn das Alles ist (or negatively wenn es weiter nichts ist), if that be (or is) all; Alles aufbieten, to strain every nerve, to exert one's self to the utmost; es ist mir Alles eins, gleich, einerlei, or recht, it is all one, the same, or equal to me, I am for anything; es kommt ihm Alles gelegen, he is for anything, nothing comes amiss to him; Gewißheit über Alles und Jedes (or All und Jedes, cf. above, I 7) is unerring, certainty about anything and everything is unattainable; es ist nicht Alles Gold was glänzt, all is not gold that glistens (über diese Stellung der engl. Verneinung siehe Nicht); die Erläuterung ist Alles (or alles Andere) eher, als erläuternd (or die E. ist Alles, nur nicht c.), the explanation is anything but explanatory; ich möchte (lieber) Alles, nur nicht ..., or ich möchte lieber Alles Andere, als ..., I would have anything rather than ...; über Alles, above all things, of all things; Deutschland über Alles! Germany above all! das möchte ich um Alles in der Welt nicht thun, I should not like to do that for all the world; vor Allem, before all (things); vor Allem erlaube ich Sie, above all,

I request you; Alles was, all that; Alles was er hatte, all that he had; Alles wurde aufmerksam, every body's attention was called; b) *indeclinable in conjunction with* was, wer, and other interrogatives and relatives, serving (similar to *innum* or the English *ever*, &c.) to emphasize the word to which it is added, so that it should be accepted in its widest sense; was werde ich noch Alles leiden müssen, what and how many sufferings may not be in store for me! how manifold (in number, degree, kind, &c.) may the sufferings be I have yet to undergo; was sehest nicht Alles! how many things were not wanting! es ist erstaunlich, was er Alles weiß, it is surprising how many things he knows, the extent and variety of his knowledge are surprising; ich habe vergessen, was er Alles wissen wollte, I have forgotten all the manifold particulars he wanted to know; was könnte ich nicht Alles dir zu Richte thun? what is there (i. e. there is nothing whatever) in all the world I would not do for love of you? wer war denn Alles zugegen? who were all the persons present? wem soll ich wohl Alles noch Geld geben? how many are there still to whom I am to give money? ich hatte den Philosophen, den Physiker, Mathematiker, Maler, Mechaniker und Gott weiß wen Alles in Anspruch genommen (*Goethe*), I had called in the assistance of the philosopher, the physicist, the mathematician, the painter, the mechanic, and God knows whom besides; waschaftig, ich wüßte nicht, wozu ucin gekränktes Geiz jetzt nicht Alles hätte wäre (*Goethe*), indeed, I do not know, of what (dreadful) things my injured heart might be capable at this moment; als er sah, wie und wo man die Exzellenz Alles sucht (*Gutzkow*), when he saw, how eagerly and in how many (possible and impossible) places they looked for his Excellency; in Rom und wo All (Alles) (*König*), in Rome and wherever else; c) see Alles in the alphabetical order below.

A. Als, a frequent mode of spelling the contraction Als (for Alles), which is to be preferred in order to avoid confusion with the conjunction Als (B).

B. Als, conj. 1) † in the primary demonstrative sense of also, so, at the head of a conclusive sentence, for the modern so, which is not expressed in English: nachdem unser Feldherr... sich bewegen ließen, noch bei der Armee zu verbleiben..., — verpflichten wir uns... (Schiller, Picc. 4, 1), (Coleridge:) Inasmuch as our supreme commander... has consented to remain still with the army... so we... do hereby oblige ourselves...

2) In comparisons: *a*) in connection with a verb, † for our present wie: du sollst deinen Nächsten lieben — (wie) dich selbst (Matth. 22, 39), thou shalt love thy neighbour as thyself: seine Sörzer zu bewegen | sprach er — (wie) ein Cicero (Hagedorn), to move his hearers he spoke like a Cicero: in this sense als wie were sometimes combined, a phrase avoided by modern prose: bedarfer nicht der Nacht — wie des Tages? (Göthe), does he not want the night as well as the day? so flug als wie zuvor (the same), no wiser than before: *b*) in connection with a substantive, also † for wie: in einem Lande — Deutschland (Lessing), in a country like Germany: — wie für wie: die Zeiten sind — wie ein Rad (Logau), time is like a wheel: *c*) in connection with the positive degree of an adj., † for wie: weiß — Schnee (Matth. 28, 3), white as snow: — wie für wie: weiß und roth — wie ein nachſen Bild (Wieland), as white and red as a waxen image: *d*) *an*) in all the cases mentioned under *a*, *b*, & *c* — († also) was often preceded in the first clause of the sentence by a correlative word, viz. jo († — for also) before verbs, adjectives, and adverbs, ſoſch before substantives, &c.; thus als... als... was used as late as the 16th cent.: — roth — Scharlach, as red as scarlet, &c.: either of these correlative or correspondent words is not seldom omitted; a mere so in the modern mode of speech is sufficient to connect the two clauses: — (for ancient also) viel (omitted als) an uns iſt (Iather): modern

examples: ſo viel (—) an uns ſiegt, as much as in us lies; ſo gut (—) ich konnte, as well as I could: instances of the second kind (*i. e.* omission of the first correlative) are very numerous: der Ofen glüht, die Beige blaſen (omitted ſo, ſo ſehr), I — glüht es ſelben zu verglaſen (Schiller, Gang zum Eiſenhammer), the furnace glows, the bellows blow, as if the task were to melt rocks into glass; *bb*) in correlative sentences and phrases, such as ſo viel (ſo wenig, ſo gut, ſo ſchlecht *zc.*) — möglich, *zc.*; ſo ſchnell (ſo langſam, ſo kurz, ſo lang *zc.*) — ... *zc.*, als ſie ſtill, and perhaps more frequently used than wie: Einer iſt ſo viel werth — (or wie) der Andere, one is as much worth as the other. So likewise in the combinations — wenn (or wie wenn, wie wann), — ob, — daß (never wie ob, wie daß) &c.; er that (ſieſte ſich), — wenn (or — ob) er nichts wiſſte, he made (a show) as if he knew nothing: *e*) *an*) after the comparative degree of an adjective. This is the proper province of als in modern High-German: (roth wie Blut, but: röther — Blut, redder than blood. But even here wie (and — wie) is not only used colloquially, but by good writers. Besides this als the old denn has been retained in the more devoted style and even in common usage, when a collision of two als would have produced a bad sound: — Knabe war er ſchöner denn (for als) — Jüngling (Himm), as a boy he was more beautiful than as a youth: lieber frei ſterben, denn — Sklaven leben, rather to die free than to live as slaves, &c.; *bb*) als is also used after words which, though not comparatives as to their outward form, imply a comparison; thus after ein anderer and its derivatives, ſonſt, negatives and interrogatives, &c., the latter term of an exclusive comparison is introduced by als, exactly corresponding to the cases which in English require than after other (*cf.* Ander), otherwise, else, or but (in the sense of besides): er gab keine andere Antwort, — einen beſſeren Ton der Zuſtimmung, he gave no other answer than a gruff sound of acquiescence: was wir ſabeln oder Porobeln nennen, ſind nichts anderes, — Allegorien, what we call fables or parables are no other than allegories: Eſt iſt nichts anderes, — die Art des Ausdrucks, weſen *zc.*, style is nothing else than that sort of expression which, &c.: wir urtheilen anders von ihnen — von uns ſelbſt, we judge otherwise of them than of ourselves: ſie liebt keinen — ihn (perhaps better: ouſer ihm), she loves none but him: wer anders kann gemeint ſein, — ich? who can be aimed at but I? keiner — ich vor zugegen, none but I was present: er iſt zu flug, — daß er an Geſpenſter glauben ſollte (Heyſe), he is too clever to believe in ghosts: er iſt zu flug, — daß ihm dieſer Vortheil entgegen ſollte, he is too prudent for this advantage to escape him: eine zu feſt eingewurzelte Gewohnheit, — daß das mildeſte Frühlingewetter ſie ändern könnte, a habit too inveterate for the most genial spring-weather to alter.

3) Als identifying: *a*) before predicative cases, particularly the nom. & acc., identifying a logical subject and its predicate; ich ſomme — Bote means I come as a messenger, *i. e.* although not in general a messenger: er ſarß — Bettler, he died (as) a beggar: er ſarß mir — Antwort (auf ...), — Erwidrerung, he wrote to me in answer (to ...), in return: *b*) this als rendered by other English turns of phrase: ſie läßt die armen Kinder Sodelmund — Kücken und Bindjaden — Strumpfbänder tragen, she lets the poor children wear sackcloth for pinafores, and packthread for garters: er ſieß nie Jemand — Miſſiker zu, he never admitted any person to be his minister, who... ich wurde — Unglücklicher angeſehen, I was considered (to

be) an infidel; die gereiften Früchte seiner Arbeiten — Geistlicher und Professor, the matured fruit of his ministerial and professorial labours; er unterzeichnete das Document — *Schaffmeister*, he signed the document in the capacity of an attorney; das Gesicht kam — *Denkschrift* vor den gesetzgebenden Körper, the application came before the legislature in the shape of a memorial; alles dies, obgleich es — *Anregung von Werth* ist, ist — *Beweis* nichts werth, all this, valuable as it is in the way of suggestiveness, is worth nothing in the way of proof; c) the omission of this als is frequent in poetry and the elevated style: bist du ein Knecht berufen, sorge dir nicht (1 Cor. 7, 21) art thou being called a servant? care not for it: daß ich ein Bettler geboren werden durfte! (*Schiller*), oh, that I might have been born (as) a beggar! (Vgl.: I'll live and die a maid, to live and die her slave, &c.); d) als introducing enumerations, &c., to be explained as representing a shortened sentence: aa) es gibt drei grammatische Geschlechter, — (for — da sind, which is likewise used) Masculinum, Femininum, Neutrum, there are three grammatical genders, viz. masculine, feminine, neuter; diejenigen neueren Sprachen, — (or wie die französische zc. (*Lessing*)), those modern languages, as, for instance, (or, such as) the French, &c.; Weihnachtsgeschenke, — (or wie) Bücher, Kleider, Spielzeug, lagen auf dem Tisch, Christmas presents, in the form of books, clothes, playthings, lay on the table; bb) before heute, morgen, gestern zc., similar to the English: as to-day, as to-morrow, &c., rather colloquial: er benachrichtigte mich, daß er — (or — wie) heute Morgen hatte zu mir kommen wollen, he informed me that he had intended to come to me as this morning (cf. As, Vol. I.). This als always serves to put the word or words which it introduces prominently forward, and is even, though seldom in recent usage, combined with the relative: ihr habt diesen Menschen zu mir gebracht, — der das Volk abwende (Luk. 23, 14), ye have brought this man to me, as one that perverteth the people.

4) Als, temporal, when; always relating to some past event which took place simultaneously with some other event: — wir in die Stadt fuhren, hörte es auf zu regnen, when we drove into the town, it ceased to rain (just as the one event took place, so the other took place, &c. simultaneously); — ich das Vorgesandte durchgehe (*Schiller*; the historic present for the imperfect throughgoing of common prose), on passing through the antechamber, I heard, &c.

spectacles, “so this is the Emperor Titus”; was! Amerika (rarely *America*, for, having become a "household word", in daily use, it is gener. spelt as a German word, with a t, cf. Afrika), (str.) n. America (orig. a Latinised adjective: America, the American, viz. terra country), so called from Amerigo Vespucci, a Florentine, who accompanied Columbus in his second voyage (1499), and published the first description of the newly discovered countries. According to Humboldt, a German professor, M. Waldseemüller, translator of Vespucci's much read account, first proposed the name which occurs on a map, published at Metz, as early as 1522, and was soon generally adopted. As to Amerigo, or rather Amerigo, an assimilation for Amerigo, we find it to be derived from Amalric (OHG., MHG. Amalrich, Amolrich), a German name of high antiquity, while it was considered by Vespucci and his Florentine contemporaries as a secondary form for Alberico (Lat. Albericus, from MHG. Alberich).
